HARDOX® WEAR PLATE

Unmatched Strength

Allows for increased load-bearing capacity and structural integrity during intense harvesting operations with a normal hardness of 450 HBW and a yield strength of approximately 1200 MPa.

Abrasion

Its wear-resistant properties protect combine components from wear, impact, and material loss while extending durability, reducing maintenance costs, and improving overall machine performance.

Reduced Weight

Hardox 450 is lighter weight than traditional steels, contributing to fuel efficiency, and increased payload capacity.
